Bay Point Municipal Advisory Committee

Sterling Stevenson, Chair

Federal Glover, District V Supervisor

Debra Giles, Administrative Support 3105 Willow Pass Road Bay Point, CA 94565

Respectfully submitted by: Debra Giles

The Bay Point Municipal Advisory Committee serves as an advisory body to the Contra Costa County Board of Supervisors and the County Planning Agency.

Record of Actions

7:00 pm Tuesday, May 2, 2010

Council Members Garcia, Kopitar, Magleby, Mason, Stevenson, and Zumwalt were present. Council Member Tremaine was absent.

Others present: Ed Diokno of Supervisor Glover's office, Maureen Toms of County Redevelopment, Jacob Conway of County Environmental Health, Lt. Fernandez of the Sheriff's Dept., Deputy Marlene Gouvaia, School Resource Officer, and Paul Buddenhagen, County's Service Integration Program Manager.

1. Call to Order / Pledge of Allegiance led by Chairman Stevenson.

2. Approval of May 2, 2010 Agenda

Motion made by Councilwoman Zumwalt to approve the May 2, 2010 agenda with the correction of 3b, Review of Actions date to 4/06/10. Seconded by Councilwoman Garcia. Motion carried 6-0; Council Members Garcia, Kopitar, Magleby, Mason, Stevenson, and Zumwalt voting "yes"; Council Member Tremaine absent.

3. Consent items

- a. Approval of monthly Recording Secretary invoice \$120.00
- b. Approval of Record of Actions of April 6, 2010

Motion made by Councilwoman Magleby to approve the Consent Items. Seconded by Councilwoman Mason. Motion carried 6-0; Council Members Garcia, Kopitar, Magleby, Mason, Stevenson, and Zumwalt voting "yes"; Council Member Tremaine absent.

4. Public Comments:

Mrs. Elaine Prendergast, Executive Director of Center for Human Development stated she would like to bring the Council up to date on the Youth Diversion Program for Bay Point. She stated she would like to come back and do a larger presentation in the future.

Mrs. Prendergast stated four years ago Supervisor Glover's office asked the Center for Human Development to be the representative for Bay Point in looking at DMC, Disproportionate Minority Contact, regarding the disproportionate youth of color involved in the juvenile justice system. She stated it has been a long process headed by probation and includes the DA's office, Sheriff's Dept., and many community based organizations. Mrs. Prendergast stated the need is great, they want to get a program up and running, but really can't do it until they get solid funding, as she is committed to not starting a pilot program only to have to stop it because of funding; she's seen it happen too often in communities, including Bay Point; we want to make sure the youth diversion program here keeps going. Mrs. Prendergast stated after many months of work Probation put out a request for qualifications which the Center for Human Development answered, but knowing they couldn't do it alone she turned to Debra Mason and the Teen Center to put together a joint proposal; with the Teen Center's Rande Ross and her coworker Anita Marquez on the team. Probation accepted their request, staff was sent to street walk training (a best practice model based out of Culver Spring, Maryland), and completed their protocol. She stated they are ready to go, to sign an MOU with the Sheriff's Dept. for referrals, and the only thing holding them up now is funding. She stated they are looking for the Council's moral support, knowing the MAC is concerned about youth issues in Bay Point, and any suggestions they might offer regarding funding.

5. Presentation to volunteers with the Earn It! Keep It! Save It! Program — Paul Buddenhagen, County's Service Integration Program Manager

Mr. Paul Buddenhagen thanked the Council allowing him the time to speak about this program and also recognize and thank the volunteers and staff that make the program such a fabulous thing. He stated the Earn It! Keep It! Save It! Program was developed by The United Way of the Bay Area with the idea to provide low income folks with free tax preparation instead of spending \$100 - \$200 at the tax preparation businesses. He stated Eva Garcia and some folks here were involved in creating this program, and there are now 18 sites spread throughout Contra Costa County. Mr. Buddenhagen stated he is incredibly proud of the work they've all done because this site has prepared more taxes than any other site, which is quite an accomplishment as there are sites in much bigger cities like Antioch, Richmond and San Pablo. He stated this committed group of volunteers this year prepared 397 tax returns which in turn brought in over \$300,000 return money back into the community. He stated since this program began in 2004 they have prepared taxes for almost 2,000 residents, multiplied by \$100, they have saved \$200,000 for residents in this community in no tax preparation fees, and had returned 2.6 million dollars in tax return dollars to this community. Mr. Buddenhagen stated certificates were being given tonight for these volunteers service, but he also wanted to publicly give them as much honor and respect as he can for doing such a fabulous job; doing 100 more returns than any of the other sites.

[Applause]

Mr. Buddenhagen called the following volunteers to the front and presented them with Certificates of Appreciation:

Angie Chin, Katherine Punsalang, Eva Garcia, Maria Muñoz, Richard Shumaker, and Diashalla Thurman.

5. Agency Reports. The MAC received the following reports:

a. Contra Costa County Sheriff's Department – Lt. Victor Fernandez

- Lt. Fernandez distributed copies and reviewed the statistics for the month of April, including comparisons from the same time last year.
- Lt. Fernandez stated regarding last month's question about rape on the report; one in March and two in April, and after researching them found them not to be connected. Also, regarding last month's question regarding staffing changes; they always have 2 Deputy Sheriff's on in Bay Point, 2 Resident Deputies, the School Resource Officer, and also the J-Team and other resources are available if needed.

Chairman Stevenson asked about the cluster of six auto burglaries and if any conclusion had been made about their occurrence in that area.

- Lt. Fernandez stated sometimes that occurs from "opportunity", as in around the same time of day, but that he would have to research this and get back to them.
- Mr. Diokno asked if they kept separate records of incidents that might be gang related.
- Lt. Fernandez stated they have 'enhancements' for gang related activity, but in terms of the actual crimes it's not always clear or definite that it was or was not a gang member committing it when the report is made; unless somewhere along in the report they can connect that they are a gang member; it depends on how the report is documented. He stated if a 'gang enhancement' is added to the crime, it is recorded; that is the only differential in recording.

b. California State Highway Patrol

Not present.

c. Redevelopment Staff Report – Maureen Toms Old Business:

Discussion on the Walgreen Drug store project

Ms. Maureen Toms stated the Walgreen Drug store that was approved by the zoning administrator have pulled their grading permit, have their equipment on site, and are waiting for the rain to stop to get a good start on the grading and start their foundation work shortly after that; maybe by the end of the month. She stated construction is

expected through the summer and fall and their goal is to open the store in February.

Habitat for Humanity

Ms. Toms stated the project on Inglewood, off of Bella Vista, 9 single family units, expect to start their grading in 10 days to 2 weeks.

New Business:

- Ms. Toms stated she had a couple of other items to discuss. She stated Council Members were given a copy of an email received today in reference to California Redevelopment Association suing the State for the taking of Redevelopment funds. She stated that to Bay Point the Take means 7 million dollars are being diverted from Redevelopment; countywide the Take means 7.5 million dollars taken out of all the Redevelopment funds in the unincorporated county, and it is even higher when you look at all the Redevelopment funds taken from the cities. She stated it is a huge Take, statewide it is over 2 billion dollars of funds typically used for redevelopment, economic development purposes that are being diverted. She stated the California Redevelopment Association got the ruling today and held a Board meeting, deciding to appeal it, and also asking for an emergency stay, because all of these funds are due next week on May 10th, so they wouldn't have to pay these funds while they appeal the decision. She stated there may not be a decision quick enough on the stay to avoid having to pay this out; and this is bad news for Redevelopment and for their budget.
- Ms. Toms stated they have the Public Works Department doing an infrastructure study for the neighborhood area of Bella Vista, Franklin, and Madison; to look at what the needs are and what the cost would be. She stated they have received some preliminary numbers, and bringing all of those roads up to current code and standards i.e. adding sidewalks, curbs, gutters, and drainage, would be about 18 million dollars. Ms. Toms stated that will not happen in probably the next five years, but what they are looking at doing is breaking it up into phases, and going out into that community and determine at what levels they would like to see these improvements, because some improvements would require cutting down some trees that now beautifully line some streets. She stated they would have to work with the community on what the priorities and scope of improvements would be.

d. Supervisor Federal Glover General Report – Ed Diokno

- · Mr. Ed Diokno of Supervisor Glover's Office stated the Supervisor's annual Youth Summit was held on April 24th at LMC was a huge success, with the largest attendance ever, over 600 young people. He stated they actually ran out of food.
- Mr. Diokno stated the Supervisor attended the Town hall meeting on Bay Point schools last week and has already planned further meetings with the new Superintendant of Mt. Diablo Unified School District to emphasis his expectation of his endorsement of Measure C, especially in regards to Bay Point schools.
- Mr. Diokno stated the new Enterprise Zone that will include Bay Point has been

approved by the Board of Supervisors and the City of Pittsburg. He stated as soon as the application has passed all of the state approvals, hopefully by the end of June, the Supervisor will sponsor a Public Meeting for all interested businesses; businesses already here and businesses who might be interested in moving here, to take advantage of the incentives provided by the Enterprise Zone.

- Mr. Diokno stated there were a couple of dates to mark on their calendars:
 - 1) May 22nd is the East County Joint MAC meeting in Knightsen, with all details still not available as 3 of their members had resigned. He stated as soon as plans were finalized by Supervisors Glover and Piepho, he would pass them along.
 - 2) May 24th is Supervisor Glover's next Town hall meeting here at the Ambrose Center, 6:30pm 8:00pm, where the final recommendation of the Bailey Road Beautification plan will be presented, and all the traffic problems that might be related to it.
- Mr. Diokno stated applications for the Keller Canyon Landfill Mitigation funds are now available at Supervisor Glover's office, and the deadline for filing is the end of May. He stated the MAC's application had already been submitted.
- Mr. Diokno distributed some data to Council Members and stated lastly, this was in response to a question asked at the last MAC meeting when the Rental Ordinance was being discussed, regarding the number of Bay Point rental units compared to owner occupied units. He stated the report was based on the latest information gathered in 2006 2008, which didn't have the latest breakdown which would have included the impact of the mortgage meltdown, but it does show that Bay Point is not too extreme compared to other cities in the county. Mr. Diokno stated the Building Inspection Unit is still in the process of presenting the proposed changes of the Rental Ordinances to the other MACs so it hasn't been put on the Public Protections Committee agenda yet. He stated as soon as that is put on the agenda he will let the MAC know as he is aware some members are interested in following that.

Mr. Diokno pointed out the chart shows there are six other communities with a larger percentage of rental units than Bay Point; although in Bay Point there is almost 2/3 owner occupied and 1/3 renter occupied.

Councilwoman Zumwalt asked which of the other 5 listed as higher than Bay Point, including Concord, El Cerrito, Pittsburg, Richmond, and San Pablo, were in unincorporated areas, which are covered by the Contra Costa County Division.

Mr. Diokno replied that they were all cities.

Councilwoman Zumwalt stated they were then not covered by Contra Costa County Rental Inspection Program, that Bay Point is the only one covered by them, and has the highest number of renter occupied units of all the unincorporated areas.

Mr. Diokno replied that it was a good point; that the unincorporated numbers were

not given to him; Bay Point was the only unincorporated community included in this report since it was the largest; the others are much smaller.

Councilwoman Zumwalt stated she had asked last month about changing the proposal to have Bay Point's Code Enforcement officers to inspect rentals as we have the highest percentage of renter occupied units in the county, and we would therefore be taking our officers time away from his already overwhelming regular duties. She stated she really feels strongly about this.

Mr. Diokno stated he understood what she was saying, and would keep her up to date on it.

6. Presentations Presentations were made by:

a. Ms. Carol Martin's class and Deputy Marlene Gouvaia, School Resource Officer of Riverview Middle School, to talk about gangs in Bay Point

Ms. Carol Martin introduced herself and some students from her Autonomous Learner class, who have been learning about the Legislative Process and how our government works. She stated when she met Mr. Stevenson at a meeting she began thinking about different ways to share what had been learned including presenting here tonight. She stated she was also pleased to be here tonight as she has worked in Bay Point for 15 years.

With poster board visuals, students Kara Malig, Cristian Juaregui, Robert Aragon, and Isaac Gomez demonstrated the process of researching, discussing, and determining the issue they choose to work on affecting their community and school, "Gangs in Bay Point". Also the possible solutions that were also researched, discussed, and eventually chosen by the class to write a proposal for, of sending one or more school administrators to Gang Awareness training until all administrators had been trained; enabling them to instruct other school staff and making available on a daily basis adults educated on gangs and how to help students in need. They also shared other places they were presenting their project to before finally presenting it the Riverview Site Council for approval. [Applause]

Ms. Martin stated the only difficulty they were having is finding a training site for school administrators, that they found plenty of training available to law enforcement officers, but it is very hard to find a place to train school staff.

Mr. Diokno asked when they would be presenting this to the Site Council, and also what grade her students were in.

Ms. Martin stated her students were 7th & 8th graders, and they had planned on presenting this today, but decided to present it at some other places first; that their Site Council presentation will be a little different.

Deputy Marlene Gouvaia, School Resource Officer, stated she was here to strongly support the class in its efforts; they have done an awesome job, and also answer any questions the Council might have.

Councilwoman Zumwalt asked if there had been no administrators in the Mt. Diablo Unified School District now trained in gang awareness.

Deputy Gouvaia stated that was not particularly true, but at least at Riverview, there is such a turn-over of administrators, and they are looking to have a resource at the school besides the school Resource Officer, trained not only in prevention but also in counseling to help the students. She stated she is not always available when someone needs help as she covers all the schools in Bay Point and may be tied up at a different school.

There was a discussion regarding the 37 different gangs identified in Bay Point, not all necessarily from Bay Point, but from surrounding cities (Oakland, Antioch, Concord, San Francisco, Brentwood, Oakley) hanging out and making themselves known by 'tagging' in Bay Point, claiming members here, and influencing & pressuring our young people that it is 'cool' to belong to a gang.

Councilwoman Mason inquired how long ago the pictures of graffiti were taken, and in the Officer's experience, how long does the graffiti stay up before someone paints over it.

Deputy Gouvaia stated she didn't want to point out where the pictures were taken exactly, but in some instances it will be painted over, and then back up the next day, or it will go back & forth from Norteñoes and Sereños, from red to blue. She stated some of the businesses do a good job and cover the graffiti up right away, but some of the places tagged are like the back wall of somebody's house, or their fence, and they don't have the money to cover it up right away or repeatedly.

Councilwoman Magleby stated the Bay Point Pride volunteers paint over graffiti no matter where it is. She stated the graffiti pictures were disgusting and they would be out and about to take care of it.

There was a discussion about the large amount of graffiti, and Deputy Gouvaia staying in touch with the Bay Point Pride, through Councilwoman Magleby, so they can work together in getting rid of the graffiti. Also discussed was who else could help in taking care of painting over the graffiti, including other willing individuals and organizations in the community.

Chairman Stevenson closed the discussion stating the MAC is supportive of what this class is trying to do, and to let them know how they can be of help

b. Jacob Conway, County Environmental Health to discuss their function in Bay Point

Mr. Jacob Conway distributed information and stated he was asked to come tonight to give a brief synopsis of his job duty with regard to the Bay Point community. He stated

one of Environmental Health's 5 departments is his, Land Use Department, covering inspection of small water systems, septic systems, retail food establishments, a medical waste facility, massage parlors, tattoo parlors, and public swimming pools. Mr. Conway stated his part is the solid waste department, and he is responsible as a Code Compliance Officer to ensure that the community of Bay Point is clean and free of refuse and debris. He stated they do that through the county's codes and ordinances that have been given to them to enforce by the county Board of Supervisors.

Mr. Conway stated that 2 specific ones he enforces are 1) refuse disposal, and 2) mandatory garbage service; which states every resident in an unincorporated county has to sign up for garbage service, and it is the owner of the property's responsibility to ensure that the property has proper garbage service provided. He stated that calls to him through the community, or garbage service providers, various tips of information, and then he goes out and inspects to ensure they are in compliance with the ordinance. Mr. Conway stated the other ordinance he is responsible for is accumulation of refuse at a commercial or private property; including some of the home foreclosures where there is a lot of refuse being dumped on the exterior of the property. He stated his department tries to stay on top of those situations also through calls and complaints from the community.

Mr. Conway distributed his business card for people to contact him, and stated they could also go through their county webpage to submit information anonymously to them regarding unsightly properties or properties that don't have garbage service. He stated they have recently incorporated investigating illegal haulers who are unlicensed that drive around picking up trash and garbage and supposedly transporting it to the transfer center; but many of them are dumping it illegally on the side of roads. He stated they also investigate these types of complaints.

There was a discussion regarding hauling businesses; that they must be licensed through their department to be legal, and their loads must be dumped at the transfer station. Mr. Conway stated there are no licensed haulers at this time in Bay Point; they are not trying to keep anyone from making an honest living and providing a service for the community, and are in the process of revamping the process to have some of the reputable businesses incorporated and licensed. Also discussed was enforcing foreclosed homes with overgrown yards; that the jurisdiction lies with the Fire Department weed abatement or the Building Department for anything over 18 inches high; but Mr. Conway would funnel those requests for calls that come into his office.

There was also a discussion regarding street vendors; a part of Environmental Health Department's responsibility, but a gray area about who can inspect them; a licensed State Registered Health Specialist or whether they can enforce it as Code Enforcement officers on illegal vending basis. It is being considered to allow the Code Enforcement Officers to stop them and confiscate their materials, but not at this time. Also if the food is cooked outside, purchased inside, and taken from the facility it does not require a permit but if the food is cooked outside, purchased and eaten at the facility, it does need a permit.

Ms. Toms added that they may need a permit through the Health Department, but there

are land use permits that are required; and none of them have them at this time.

Mr. Diokno stated if there was confusion about who to report to it was decided at their Code meeting that Robert Erickson of Building Code would be the go-between if there are any questions on Code issues; he would direct you to the correct department.

Mr. Conway also encouraged people to call him and he would direct them to the correct department also.

7. Items for Discussion and/or Action

a. Any Consent Items removed from Consent calendar.

None

b. Consideration of a Community Group Funding grant \$500.00 to the Bay Point Pride for graffiti abatement beautification projects.

Councilwoman Magleby recused herself during this item.

Ms. Maureen Toms stated this is an extension of a request made in December, for funds allocated to community groups to do blight alleviation projects, and the Bay Point Pride has been the main group to make use of these grants for reimbursement of painting supplies, weeding supplies, and volunteer hours at \$7.00 per hour paid to the non-profit group to use as they wish to further their non-profit group's charge. She stated they have requested an additional \$500, and as recorded before, Redevelopment is recommending no more than 10% of the money be used for mailing costs; they would like to see more direct use of the funds for blight alleviation.

After some discussion it was decided:

Motion made by Councilwoman Garcia to approve additional \$500 funding to the Bay Point Pride with the focus on graffiti abatement, and to also include a more detailed sign-in sheet to reflect what dollars are spent on. Seconded by Councilwoman Kopitar. Motion carried 5-0; Council Members Garcia, Kopitar, Mason, Stevenson, and Zumwalt voting "yes"; Council Member Tremaine absent; Council Member Magleby recused.

c. Consider providing comments to the Department of Conservation and Development regarding proposed changes to County Code related to Home Occupation Ordinance.

Ms. Maureen Toms stated she was not ready to make a recommendation; they are looking at streamlining the process but retaining the standards for home-based businesses to come in and get their approvals. She stated she would have more next meeting.

d. Resolution presented by Greg Enholm regarding Junior College funding

Councilwoman Magleby read the first paragraph from Mr. Enholm's proposed resolution to summarize this item: "Resolution requesting the U.S. Congress members representing Contra Costa County to pass legislation to provide adequate funding for all U.S. community colleges and especially for the Contra Costa Community College District including Los Medanos College, Diablo Valley College, and Contra Costa College which are attended by Bay Point residents"

Motion made by Councilwoman Mason to approve drafting a resolution requesting the U.S. Congress members representing Contra Costa County to pass legislation to provide adequate funding for all community colleges, especially for Los Medanos College, Diablo Valley College, and Contra Costa College which are attended by Bay Point residents; to be submitted to Supervisor Glover for his approval. Seconded by Councilwoman Zumwalt. Motion carried 6-0; Council Members Garcia, Kopitar, Magleby, Mason, Stevenson, and Zumwalt voting "yes"; Council Member Tremaine absent

e. Measure C. Do we want to support it?

After some discussion it was decided to support Supervisor Glover in his decision to support Measure C.

Motion made by Councilwoman Magleby to approve sending a memo to Supervisor Glover stating the MAC joins him in supporting Measure C. Seconded by Councilwoman Kopitar. Motion carried 4-2; Council Members Kopitar, Magleby, Stevenson, and Zumwalt voting "yes"; Council Members Garcia and Mason voting "no"; and Council Member Tremaine absent.

8. Committee Reports The MAC received the following reports:

• Code Enforcement – Stevenson and Tremaine Nothing to report.

· Community Wellness Program - Mason

Nothing to report on Community Wellness.

Councilwoman Mason stated, as reported by Elaine Prendergast, she will begin giving updates on the DMC (Disproportionate Minority Contact) program each month.

· CAP - Kopitar

Councilwoman Kopitar gave a brief report on the CAP meeting held at Criterion Catalyst, with safety being a major concern, and they are reducing plant operations; one plant closing and one plant opening, but Bay Point's plant is staying here. She stated they also just completed the CAP's annual evaluation and the outcome was very good. Councilwoman Kopitar also reported General Chemical will be using their old name through June, and will then start selling new products under their new name.

· Bay Point Cleanup Day - Garcia

Councilwoman Garcia stated the proposed clean-up date was in conflict with the Joint MAC meeting on May 22nd and she would contact Pittsburg Disposal about rescheduling the following weekend.

Mr. Diokno stated it was possible to have the clean-up on the same day as the Joint MAC meeting, if you can just send one member as a representative to the Joint MAC meeting; the clean-up date is already posted as the 22nd in the Supervisor's Newsletter and flyers had been made.

Councilwoman Garcia agreed and stated the time was 8am – 12pm or whenever the dumpsters were all filled.

9. Members' Comments

a. Bay Point Chamber of Commerce – Magleby

Councilwoman Magleby stated the Chamber is sponsoring some important things including the Yard Sale coming up on May 8th, turning out to be a fabulous thing; come get rid of your junk for just \$20 a space, and a dumpster and Goodwill trailer will also be available for stuff you don't want to take back home. She stated they are also supporting the Memorial Day parade and festival, handling the Memorial Day service with a lot of VIPs coming, with singing, and spending some time to honor servicemen and veterans, some from our community.

b. Town Hall on Schools – Stevenson & Magleby

Councilwoman Magleby stated they had their Town hall meeting, a grassroots effort, with 120 in attendance with great spirit; the Superintendant of schools, Steven Lawrence was there to support them, and Supervisor Glover stopped by also. She stated she was in charge of the meeting, and one of the things said that night that really got attention was "We don't just thank you for coming, we thank you for caring", and that was what the meeting was all about, caring enough about our kids to make some moves. Councilwoman Magleby stated the thing that came out the most was to get your kids to school every single day there is school.

Councilwoman Mason asked what they were collecting money for.

Councilwoman Magleby stated it was for mailing and for the brochures they printed up; there were no receipts given as they donated out of the goodwill of their hearts, and the money is being put into a special fund and every dime will be accounted for.

Councilwoman Mason stated there are certain rules about collecting money.

Councilwoman Magleby stated they had already checked and found out about that, there are no rules that keep you from collecting money to pay for your brochures and your stamps.

Chairman Stevenson asked how many people had signed up to do a task.

Councilwoman Magleby stated almost 100 people signed up to do something, like tutoring, yard work, recess time, or just sit in the hallway and smile at the kids. She stated it was very successful; they will have another one to debrief and find out where they stand, and then have another one in September to say "how did we do?"

Councilwoman Garcia stated she was very happy with the turn out as she knows a lot of people don't like to go to meetings, that you often have to give something away to have people attend; but many showed up and most signed up to participate in something. She stated there were also students there from Mt. Diablo High School sharing their concerns, particularly about some changes being made.

Councilwoman Zumwalt stated she would like to bring up two things in Member comments: 1) She has read in newspapers about communities having Poet Laureates, someone who has presented poetry and through a contest become the Poet Laureate for that area; and was wondering if this might be something the Supervisor might consider for Bay Point; and 2) If anyone was aware of any Toastmasters groups in the area, as something else nice to have and might want to think about for our community.

10. Correspondence.

Councilwoman Kopitar reported on the following correspondence:

- Department of Conservation and Development permit approval for ATT mobility on Port Chicago Hwy.
- Golden State correction letter
- Letter about Golden State's water consumption

Correspondence was made available for viewing.

12. Future Agenda Items.

- a. Loaves & Fishes presentation
- b. More information about Rental Ordinance
- c. Poet Laureate
- d. Follow-up with county on getting additional recycle bins from Pittsburg Disposal

12. Adjourned to Joint MAC meeting scheduled for Saturday, May 22, 2010, 9:00am, location to follow.

This meeting record is provided pursuant to Better Government Ordinance 95-6, Article 25-2205(d) of the Contra Costa County Ordinance Code.
